PROGRAM OVERVIEW

The Facade Improvement Program for the Mt. Sterling Uptown Business District is designed to stimulate downtown investment, maintain and expand the economic contribution of the Uptown district, preserve the historical character of Uptown buildings, and initiate aesthetic improvements in Uptown Mt. Sterling.

The program provides financial incentives and design assistance to property and business owners to be matched by their equal or greater investment of private funds for the purpose of restoring/renovating commercial storefronts and replacing deteriorated or poor quality commercial signs and awnings.

The Facade Improvement program is funded with \$100,000.00 in start-up funds from the Tracy Family

Foundation and it is anticipated that the program will last for a period of five years. Money cannot be used for work currently in progress or already completed.

Business Owners & Tenants who are considered to be “Disqualified Persons” of the Tracy Family Foundation are not eligible to participate in the Facade Development Program (provided that the Foundation is the sole funder of the program).

Two Rivers Regional Council will be the program administrator for the Facade Improvement program. Awards will be determined by the Mt. Sterling Facade Committee, which will be composed of the following seven voting members.

Number of Members	Member Description
1	Architect with Historic Preservation Experience
1	City Council Member or Mayor of Mt. Sterling
1	Mt. Sterling City Administrator or City Council Member
2	Members of Mt. Sterling Uptown Steering Committee or Board members of the about-to-be formed Mt. Sterling Uptown 501©3 organization
2	Individuals from the Brown County community-at-large, with preference given to individuals with an appetite for historical preservation, retired from the construction industry, and a high school or college student
(1)	Representative from Two Rivers Regional Council will serve in an Ex-Officio role (non-voting)

The Mt. Sterling Facade Committee will evaluate applications to determine eligibility and, based on a set of criteria, make awards to those proposed projects that are determined will have the greatest impact on enhancing the targeted area. Funding will be provided to those applications receiving the overall highest scores until the funds are exhausted.

Project applications will be scored on how well it meets each criterion on a scale of 0 to 5 with zero being not meeting the criteria at all to five being meeting the criterion completely. The criteria are as follows:

- The amount of visual improvement the proposed project will bring to the storefront and the streetscape
- Design consistency/compatibility with the Development & Design Guidelines identified in the Mt. Sterling Long Range Strategic Plan and Redevelopment Blueprint and/or The Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for preserving and rehabilitating historic Buildings.
- Visual prominence of the project building and its location
- With limited program resources additional points will be given to applications in which private investment will be greater than 50% of the project budget.

To assist building owners & tenants with understanding this and potential impact on their buildings, case studies for key buildings in the study are included in **Appendix H**.

PROGRAM OBJECTIVES

- Encourage private investment in the visual improvement of storefronts, signs, and awnings
- Enhance the appearance of the streetscape
- Reduce vacancies in storefronts and upper floors
- Expand worker and shopper population in the Uptown District
- Strengthen or restore the original character of historic buildings
- Provide a catalyst for others to improve their buildings

ELIGIBILITY REQUIREMENTS

- **Be located within the program boundaries which are as follows:** buildings on Main and Capitol Streets which lie inside the area bounded by East Cross Street and West Cross Street and North Street and South Street. Only facades facing these streets are eligible. (See next page for boundary map)
- If the applicant is not the owner of the building, written consent detailing the intended improvements must be obtained from the legal owner and submitted with the application. No financial incentives will be awarded to government-owned properties. Non-profit organizations are not excluded from applying for funds; however, priority will be given to privately-owned commercial or mixed use buildings.
- For sign and awning projects, tenant must have at least five years remaining in lease at location of proposed project and/or option to renew for at least five years.
- Building projects must be designed by a qualified design professional and signs must be produced by a professional sign maker
- The project applicant must owe no outstanding property taxes, fees, judgments, or liens to the City of Mt. Sterling and have no outstanding code violations
- All work performed on the recipient's building must comply with Mt. Sterling ordinances, codes, and regulations. It is the sole responsibility of the recipient to obtain any and all zoning clearances, variances, permits, and approvals before work commences.
- Projects must comply with the Development and Design Guidelines in the Mt. Sterling, Illinois Uptown Long-Range Strategic Plan and Redevelopment Blueprint dated November 1, 2011 and the *Secretary of the Interior's Standards for the Rehabilitation of Historic Buildings* (**Appendix E**).

PROGRAM BOUNDARIES

All eligible properties must be located within the area bounded on the north by North Street, on the east by East Cross Street, on the south by South Street and on the west by West Cross Street. The map below depicts these boundaries.

FINANCIAL & DESIGN INCENTIVES

Forgivable Loan

A 50% reimbursement of total approved projects costs up to a maximum of \$20,000.00 per building (\$40,000 total project cost). Total project costs must meet or exceed \$5,000.00 (for a minimum of \$2,500.00) to be considered for funding. Each building may receive funding only once a year. Reference Appendix D for terms of Forgivable Loan.

Loans are available to both building and business owners (tenants) for permanent aesthetic exterior improvements, exterior rehabilitation and/or extensive restoration of significant portions of a building's facade. Tenants must provide written permission of building owners.

Eligible work may include signage, awnings, window and door repair, cornice repair, exterior surface cleaning and painting, masonry repair, and other substantial improvements.

Primary (front-facing) facades, double facades (on corner buildings), and facades clearly visible from the public right of way are eligible for funding. Maximum loan is per facade, and dollars allocated for facade must be spent on that facade. If building has multiple addresses, but has been consolidated as one property in the tax records it will be considered as one building for purpose of facade program.

All improvements must comply with local and state ordinances and codes as well as follow the Development & Design Guidelines in the *Mt. Sterling, Illinois, Uptown Long-*

Eligible Improvements & Expenses

Signage:

The restoration of historic signs and the design, fabrication and installation of new signs approved by the Mt. Sterling Facade Committee. May also include the removal of non-conforming or unused signs.

Awnings:

Canvas Awnings with or without signage. Also includes canopies and marquees. May also include the removal of non-conforming or unused awnings and canopies.

Lighting:

Restoration, replacement, or new construction of historically and/or architecturally decorative lighting fixtures for the exterior of the building.

Doors & Windows:

Repair, restoration, replacement and installation of doors and windows, frames, railings, sills, glazing or glass, including storefront display windows. Restoration or reconstruction of original storefront entrance, as well as original window openings, is encouraged. If windows are replaced with new windows they should be energy efficient windows meeting the following criteria: Maximum U factor = .40, Maximum fenetration SHGC = any, Air leakage rates = .3 CFM/sq. ft. of window area or less.

Exterior Wall Finishes:

Cleaning, repairing or repainting building exterior surfaces, including brick, stone, wood, cast iron, tile, stucco or other similar exterior finishes and decorative treatments. All exterior wall finishes and improvements will be compatible to the architectural style of the building, color schemes shall accent the building and harmonize with adjacent buildings.

Cornices & Decorative Detailing:

Repairing or replacing cornices and other decorative detailing.

Structural Reinforcement:

As necessary to rehabilitate the facade(s). Costs associated with structural reinforcement may not exceed 25% of the total project cost.

Other Repairs:

Repairs and other exterior improvements that may improve the aesthetic quality and historic integrity of the building.

Ineligible Improvements & Expenses

Inappropriate Materials and Treatments:

Including but not limited to the installation of aluminum or vinyl siding, use of sandblasting and stucco to cover existing brick.

Interior Improvements:

Including restoration or rehabilitation work, interior window coverings, and interior window displays.

Site Improvements & Landscaping:

Other than building pavement associated with storefront work.

Roof and Chimney Repairs:

Roof and chimney repairs are not include unless they are integral to the facade work (mansard roofs, etc.).

Electrical Work:

Except as related to appropriate signage or exterior lighting

Security Systems

Personal Property:

The purchase and installation of furnishings, equipment or other personal property which does not transfer ownership as part of the real estate.

Permits & Fees:

Any local and/or state permitting costs or fees.

Note: Labor by Applicant: The applicant may be capable of doing certain types of labor. After consultation with the applicant, if the Program Administrator determines the applicant is qualified to perform approved work, the applicant will be notified. Applicant labor may only account for 25% of the applicants required match.

Architectural Design Assistance Program

The Facade Design Assistance Program was established to provide design assistance to property owners and business tenants within the program boundaries. The program provides up to \$1,980.00 for architectural concept drawings and conceptual budget by a licensed architect in the state of Illinois. Applicant will pay for costs for completion of construction documents for purpose of obtaining permits.

Eligible Expenses:

Professional consultation by a licensed architect with historical preservation experience for preparation of conceptual drawings and final contract documents.

Ineligible Expenses:

Any constructions costs and any local and/or state permitting costs or fees.

BEFORE: Existing transoms and projecting windows are covered with siding; Storefronts are inappropriate aluminum; Storm windows and door are inappropriate; Historic detail has been removed.

AFTER: Siding has been removed; Transoms are restored to original glazing pattern; Storefronts are appropriate wood construction; Trim and panel details have been restored at facade.

APPLICATION PROCESS | CHECKLIST

Application Submission:

In addition to the completed Facade Improvement Application, all applications must include:

- **Pre-Application Meeting:** All potential applicants are required to meet with the Program administrator prior to application submission.
- **Completed Facade Improvement Application** with all necessary information and signatures, including building owner consent (if applicant is not the legal owner)
- **Roof inspections** are required to insure that existing roof is in good condition and that all drainage systems are operational.
- **Current photographs** of the property to be improved (at least one photograph per facade) and photographs of abutting buildings.
- **Written description of current condition** of the building including any significant maintenance issues.
- **Detailed project plans and specifications**, including a written description of improvements to be made indicating project materials, finishes and colors to be used. Include relationship to adjacent buildings.
- **Samples of all materials and surface applications** to be used in the rehabilitation (i.e. paint, awning color/ material, and any other finishes or treatments.)
- **Copies of receipts or other documentation** showing personal property, business property and real estates taxes paid in full is required to be eligible for program funding and is to be submitted with completed application.
- **Bid Summary Sheet** and a minimum of two bids in writing for all eligible improvements
- **Applicants are required to submit a loan commitment letter** or a letter from a financial institution or other acceptable proof of funds indicating that the Applicant has access to sufficient capital to complete the project.

Application Deadline:

Applications will be accepted in December and June of the following calendar years provide funds are available. For 2012 the application deadlines will be August 1, 2012 and December 3, 2012. Applications should be submitted to:

Two Rivers Regional Council
Steve Holowicki
1125 Hampshire Street, Quincy, Illinois 62301
Phone: 217-224-8171, Ext. 114 | Fax: 217-224-9145

Note: During the application process and construction the owner of the building will provide access to their building during normal business hours as required by Two Rivers Regional Council.

TIMELINE

- **Pre-Application Meeting:** Potential applicants meet with the Program administrator prior to application submission.
- **Application Received:** Two Rivers Regional Council receives completed application and all supplemental materials by the applicable due date.
- **Design Review:** Application is evaluated by the Mt. Sterling Facade Committee.
- **Design Approval:** The Mt. Sterling Facade Committee may approve or deny portions of any application and accept the altered project without resubmission.
- **Notification of Award:** Recipients will be notified approximately 30 days after the application deadline.
- **Facade Improvement Agreement Signed:** A Facade Improvement Agreement is signed by Two Rivers Regional Council and the recipient.
- **Maintenance Agreement Signed:** Recipient signs a Maintenance Agreement
- **Program Recognition:** Upon notification of receipt of the financial incentive, each building/business owner is required to display a sign, provided by Two Rivers regional Council stating that the project is partially funded by the Mt. Sterling Facade Improvement Program.
- **Work Commences:** Work related to a Facade Improvement Loan cannot begin until authorized by the Program Administrator. Funds spent before loan

approval do not qualify as matching funds and are not eligible for reimbursement. All facade improvements must be started within 60 days of project approval.

- **Work Completed:** All facade improvements must be completed within 3 to 6 months of project approval, depending on the project size. A six month extension may be granted with demonstrated hardship.
- **Inspection:** All facade improvements must be inspected by the Program Administrator and certified building inspectors to verify work has been completed according to the Facade Improvement Agreement.
- **Submission of Final Documentation:** After photos (minimum of one per facade) and paid invoices itemizing all eligible costs are submitted to Two Rivers Regional Council for verification by the Program Administrator.
- **Reimbursement:** Within thirty (30) days of receiving all the required documentation the applicant will be reimbursed in accordance with terms of the program. Funds may be disbursed in phases depending upon project cost and funding circumstances. These factors will be analyzed, administered on a case by case basis and incorporated into the Facade Improvement Award.

Note: Projects that have received a loan prior to securing tenants for rental space must have 50% occupancy before partial payment will be processed. Owner has one full year to retain full occupancy in order to receive full payment.

OTHER PROGRAMS

Rehabilitation Investment Tax Credit (Optional Program for Building Owners)

Established by the Tax Reform Act of 1986, the Rehabilitation Investment Tax Credit allows for a 20% tax credit for the substantial rehabilitation of commercial, agricultural, industrial, or rental residential buildings that are certified as historic. The credit may be subtracted directly from federal income taxes owed by the owner.

Provisions

In order to qualify for the 20% tax credit, a property owner must:

1. **Have a certified historic structure.** To be certified, the building must be listed individually in the National Register, or as a contributing building within a historic district which is listed in the National Register of Historic Places, or be a contributing building within a local historic district which has been certified by the Illinois Historic Preservation Agency and the National Park Service. A several block area in Mt. Sterling is already listed.
2. Use the building for an income-producing purpose such as rental-residential, commercial, agricultural, or industrial.
3. Rehabilitate the building in accordance with the *Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings*. The National Park Service, with advice from the Illinois Historic Preservation Agency, determines whether a project meets the Standards for Rehabilitation.
4. Spend an amount greater than the building's adjusted basis (roughly the current depreciated value of the building not including land value) on the approved rehabilitation project.
5. Complete the work in a timely manner. Projects must meet the minimum expenditure test within a two-year measuring period, but applicants may take up to five years to complete a phased project if plans and specifications are approved in advance of construction.

6. Pay a fee to the National Park Service; the fee will be no less than \$250 and not greater than \$2,500 and will be based upon the qualifying rehabilitation expenditures.

The application process for this tax credit involves three parts, each with a review by both the Illinois Historic Preservation Agency (IHPA) and the National Park Service.

If interested in this program please contact Two Rivers Regional Council, Steve Holowicki, 1125 Hampshire Street, Quincy, Illinois 62301, Phone: 217-224-8171, Ext. 114 for more detailed information on how the program works.

Tax Increment Financing (TIF) (Optional Program for Building Owners)

Owners may also qualify for TIF financing for work associated with the Facade Improvement Program. To learn more and to see if you qualify contact;

Philip Krupps
Brown County Development Corporation
217-257-5083

APPENDIX D

FACADE MAINTENANCE AGREEMENT

City of Mt. Sterling, Illinois

This covenant and agreement made this _____ day of _____, 20_____, by and between _____, (Property Owner), and the Two Rivers Regional Council of Public Officials (Program Administrator).

Whereas, the Tracy Family Foundation has made available funds for facade program, and

Whereas, the property owner, having received a forgivable loan issued by Two Rivers Regional Council will, for 60 months after the completion of the project, assume the total cost of the continued maintenance, repair and administration of the property in a manner satisfactory to the Mt. Sterling Façade Committee & Program Administrator, and

Whereas, a loan in the amount of \$ _____ has been awarded to _____ for the property located at _____.

Now therefore, the Property Owner agrees to the following provisions:

Properties that receive funds in excess of \$10,000.00 will be subject to a Recapture Agreement. For every month the property is maintained according to standards put forth by this program, 1/60th of the loan will be forgiven. On the 60th month of the loan the Recapture Agreement may be released by Two Rivers Regional Council with no further obligation to the property owner. In the event of a change of ownership of the property occurs during the five year period, the loan must be repaid to Two Rivers Regional Council of Public Officials on a pro-rated basis for the property title to be released. Property owner will be responsible for the courthouse recording fee of the Release of the Recapture Agreement.

Name of Property Owner(s) _____

Signature of Property Owner(s) _____ Date: _____

Two Rivers Regional Council of Public Officials

Cheryl Esselman, Executive Director

APPENDIX E

SUMMARY OF THE SECRETARY OF THE INTERIOR'S STANDARDS FOR REHABILITATION

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.
10. New additions and adjacent or related new construction will be undertaken in a such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

APPENDIX H

APPLYING THE GUIDELINES TO YOUR BUILDING

To assist building owners with the application process the following section of the appendix contains suggested facade improvement for some of the buildings covered by the program. These are meant to show the potential impact to the building and provide guidance in helping to prepare the application.

Properties included as of June 1, 2012:

110 W. Main St.

126–128 W. Main St.

117–119 W. Main St.

123–125 W. Main St.

108 E. Main St.

104 E. Main St.

105–107 W. Main St.

108 N. Capitol Ave.

110 W. MAIN ST.

- A** Remove existing aluminum canopy, existing storefront, and brick veneer piers, headwall and kneewall. Look for evidence of original storefront & transom design; document and / or salvage original storefront elements to inform replacement storefront.
- B** Remove existing windows and replace with new, operable, clad wood windows to replicate the original historic window configuration.
- C** Remove paint from existing brick facade. Evaluate condition of existing brick to determine viability of cleaning and tuckpointing to expose original brick facade and limestone sills. If original brick is in poor condition to expose to the weather, provide paint finish over entire surface.
- D** Provide new wood and insulated glass storefronts to replicate the original historic storefront design.
- E** Provide new brackets, cornice and coping at parapet wall to replicate original cornice design intent.
- F** Provide new signage per Development and Design Guidelines

126–128 W. MAIN ST.

- A** Remove infill construction and aluminum windows at second floor and replace with new, operable, clad wood windows to replicate the original historic window configuration.
- B** Remove existing storefronts and cladding at facade and transoms. Look for evidence of original storefront & transom design; document and / or salvage original storefront elements to inform replacement storefront.
- C** Remove existing roof canopy and soffit to expose original brick facade - repair any damaged masonry.
- D** Clean and tuckpoint existing brick facade and limestone sills, lintels, and coping.
- E** Inspect and repair parapet and flashing.
- F** Provide new wood and insulated glass storefronts and transom to replicate the original historic storefront design.
- G** Provide new retail tenant signage per Development and Design Guidelines

117–119 W. MAIN ST.

- A** Remove existing metal and wood panels at existing storefront / transoms. Look for evidence of original storefront & transom design; document and / or salvage original storefront elements to inform replacement storefront.
- B** Remove paint at brick string course and arched window heads. Clean and tuckpoint existing brick facade and limestone sills.
- C** Provide new wood and insulated glass storefronts with transoms to replicate the original historic storefront design.
- D** Measure and record original wood window dimensions and profiles, including brick brick mould. Provide new operable, insulated, clad wood windows to match original windows.
- E** Clean original tin cornice and brackets - repair or replace as necessary, provide new aluminum coping; paint entire cornice.
- F** Provide awnings at retail storefronts and entrances. Omit awnings at entrances to second floor apartments.
- G** Remove existing signage and provide new signage per Development and Design Guidelines

123–125 W. MAIN ST.

- A** Remove existing EIFS facade material, aluminum canopy and existing storefront and transom panels. Look for evidence of original storefront & transom design; document and / or salvage original storefront elements to inform replacement storefront.
- B** Clean and tuckpoint existing brick facade and limestone head details and string course.
- C** Provide new windows at (2) east openings to match existing adjacent replacement windows.
- D** Repair / replace damaged aluminum coping / cornice. Paint to match existing.
- E** Provide new wood and insulated glass storefronts with transoms to replicate the original historic storefront design.
- F** Provide fabric awnings (transoms located behind awnings).
- G** Provide new signage per Development and Design Guidelines

108 E. MAIN ST.

- A** Remove existing vinyl siding, windows, door and sidelight at storefront. Look for evidence of original storefront & transom design; document and / or salvage original storefront elements to inform replacement storefront.
- B** Remove paint from existing brick facade. Evaluate condition of existing brick to determine viability of cleaning and tuckpointing to expose original brick facade and limestone sills. Examine area of infilled brick at second floor windows, to be removed. If original brick is in poor condition to expose to the weather, provide paint finish over entire surface.
- C** Remove existing windows and brick infill at original masonry window opening. Provide new, operable, clad wood windows to replicate the original historic window configuration.
- D** Provide new wood and insulated glass storefronts to replicate the original historic storefront design.
- E** Patch and repair existing cornice as necessary and provide new paint finish.
- F** Provide new signage per Development and Design Guidelines

104 E. MAIN ST.

- A** Remove existing aluminum siding at transom area and second floor facade. Remove all framing and supports for aluminum siding and patch and repair any damaged brick.
- B** Remove existing aluminum storefront windows, doors and framing. Maintain original cast iron storefront columns. Look for additional evidence of original storefront & transom design; document and / or salvage original storefront elements to inform replacement storefront.
- C** Clean and tuckpoint existing brick facade and limestone sills.
- D** Provide new operable, insulated, clad wood windows at original second floor openings to match original historic window configuration.
- E** Provide new wood and insulated glass storefronts with transoms to replicate the original historic storefront design.
- F** Rework existing parapet to provide new brackets and cornice to match original design.
- G** Provide new signage per Development and Design Guidelines

105–107 W. MAIN ST.

- A** Replace damaged original wood windows with new, operable, clad wood windows to match original.
- B** Remove existing storefronts and cladding at facade and transoms. Look for evidence of original storefront & transom design; document and / or salvage original storefront elements to inform replacement storefront.
- C** Clean and tuckpoint existing brick facade and limestone sills, lintels, and coping.
- D** Inspect and repair parapet and flashing.
- E** Remove paint at recessed brick panels - clean and tuckpoint as necessary.
- F** Remove satellite dish from face of building.
- G** Provide new wood and insulated glass storefronts and transom to replicate the original historic storefront design.
- H** Provide new retail tenant signage per Development and Design Guidelines

108 N. CAPITOL AVE.
